[Microsoft.AspNetCore.Mvc.StatusCodeResult](#)

[Microsoft.AspNetCore.Mvc.ViewComponentResult](#)
[Microsoft.AspNetCore.Mvc.ViewResult](#)
[Microsoft.AspNetCore.Mvc.RazorPages.PageResult](#)

Implements [IActionResult](#)

Constructors

[ActionResult\(\)](#)

Methods

[ExecuteResult\(ActionContext\)](#)

Executes the result operation of the action method synchronously. This method is called by MVC to process the result of an action method.

[ExecuteResultAsync\(ActionContext\)](#)

Executes the result operation of the action method asynchronously. This method is called by MVC to process the result of an action method. The default implementation of this method calls the [ExecuteResult\(ActionContext\)](#) method and returns a completed task.

Applies to

Product	Introduced
ASP.NET Core	1.0
